EXPERIENCE 44

TIME FOR SPORT - TIME FOR REVENGE

Da vent'anni la nostra esperienza e il nostro Know How al servizio di tutte le attività sportive.

Palestre, Piscine, grandi marchi della distribuzione sportiva, Trainer nazionali ed internazionali, tutti interlocutori con i quali negli anni, oltre ad avere allacciato relazioni e partnership durature e vincenti, ci hanno consentito di sviluppare e realizzare sempre qualcosa di speciale, unico, distinguibile, innovativo. Il tutto, da sempre, rigorosamente **Made in Italy!**

Since twenty years, our experience and our Know How at the service of all sports activities.

*Gym, Swimming Pools, big brands of sports distribution, national and international Trainers, all interlocutors with whom we have developed and realized over the years something special, unique, distinguishable and innovative, in addition to having established winnings relationships and partnership. All, since ever, strictly **Made in Italy!***

TARGETS & MISSION

Performance, innovazione, Igiene, Comfort per un prodotto o un accessorio che possa essere indossato e utilizzato da tutti gli sportivi, gli atleti, i professionisti, ma anche semplicemente da chi vuole godersi una passeggiata all'aria aperta senza necessariamente mettersi in competizione con se stessi.

Performance, Innovation, Hygiene, Comfort for a product or an accessory that can be worn and used by all the sportspeople, athletes, professionals, but also simply by all those who want to enjoy a walk outdoor without necessarily competing with themselves.

ERGONOMIC TECHNOLOGY

Siamo nati scalzi.....ma nessuno se lo ricorda!

L'evoluzione, anche nella scarpa e nelle calzature, ci ha portato nel tempo a non riconoscere piu' gli stimoli e la sensibilità con il terreno. Mal di schiena e problemi posturali sono sintomi con i quali conviviamo quasi come se fosse una normalità. La vera normalità la possiamo ritrovare tornando a camminare scalzi e praticare buona parte delle attività sportive senza l'uso della scarpa. I benefici sono incredibili, e in questi ultimi due decenni gli studi che provano e certificano questo beneficio sono oramai disponibili per chiunque. Ecco perché i nostri calzari sono nati e progettati proprio per andare incontro a questa necessità di tornare a "parlare" con il terreno, a riscoprire gli stimoli che la madre terra ci dà. Dai modelli classici ai modelli con alluce separato (1finger) per la massima sensibilità e una perfetta aderenza su tutte le superfici, asciutte e bagnate, ma anche per il giusto grip con le attrezzature da palestra e piscina .

We were born Barefoot...but nobody remembers it!

The evolution, also in the shoes and footwear, has led us over time to no longer recognize the stimuli and the sensitivity with the ground. Back pain and postural problems are symptoms with which we live as if it were a normality. We can found the real normality by returning to walk Barefoot and to practice most of the sports activities without the use of the shoes. The benefits are incredible, and in the last two decades the studies that prove and certify this benefit are now available to everyone. That's why our socks are born and projected precisely to meet this need to return to "talk" with the ground, to rediscover the stimuli that the earth gives us. From classic models to models with separate big toe (1 finger) for maximum sensitivity and perfect adherence on all surfaces, dry and wet, but also for the right grip with gym and pool equipment.

TEXTILE TECHNOLOGY

Distinguersi e sapersi innovare. Questo è da sempre una delle nostre caratteristiche.

Filati e tecnologie di ultima generazione, applicazioni e inserti al limite di ogni possibile utilizzo. Ci piace osare, sperimentare, innovare. E ci piace farlo a casa nostra, in Italia. Argento, Bioceramica, Rame, Carbonio, Raggi Infrarossi, Ioni d'argento, Cordura, Cotone Biologico, sono solo alcuni dei materiali o delle caratteristiche dei filati che utilizziamo per realizzare i nostri prodotti.

Standing out and being able to innovate: this has always been our characteristics.

Standing out and being able to innovate: this has always been our characteristics. Latest generation yarns and technologies, applications and inserts at the limit of any possible use. We like to dare, to experiment, to innovate. And we like to do it at home, in Italy.

Silver, Bioceramics, Copper, Carbon, Infrared rays, Silver ions, Cordura, Organic Cotton, are just some of the materials or characteristics of the yarns we use to make our products.

GREEN REVENGE

Revenge per un mondo migliore

È il periodo storico che ce lo impone, ma è anche l'attenzione che da sempre diamo al nostro pianeta; negli ultimi anni sempre più frequentemente realizzare un nuovo prodotto per noi significa anche utilizzare materiali riciclati o derivati di altri prodotti.

Abbiamo la possibilità di rendere migliore il nostro pianeta, anche noi vogliamo dare il nostro contributo.

TIME FOR SPORT - TIME FOR REVENGE

TIME FOR A NEW BETTER WORLD

Revenge for a better world

The historical period imposes us to do it, but it's also the attention we have always given to our planet; more and more in the last years, making a new products has meant for us using recycled materials or derivatives of other products. We have the opportunity to make our planet a better place, we want to make our contribution too.

TIME FOR SPORT - TIME FOR REVENGE

TIME FOR A NEW BETTER WORLD

RECYCLED

OUR PASSION - YOUR PLEASURE

Non sono semplici prodotti ma il risultato di centinaia di ore di prove, esperimenti, ricerche, giorni, settimane, mesi di sacrifici e delusioni

Chi ha un prodotto R-venge possiede un pezzo del nostro lavoro, dei nostri sacrifici, del nostro tempo impiegato per ottenere un prodotto unico e di qualità. La nostra Passione, la Soddisfazione di ogni sportivo.

There are not simple products but the result of hundreds of hours of tests, experiments, researches, days, weeks, months of sacrifices and disappointments.

Whoever has got a R-venge product owns a piece of our work, of our sacrifices, of our time spent to obtain a unique and high quality product. Our Passion, the Satisfaction of Every Sportspeople.
